

THE BENEFITS OF GROUND PROTECTION ACROSS MANY INDUSTRIES AND SECTORS

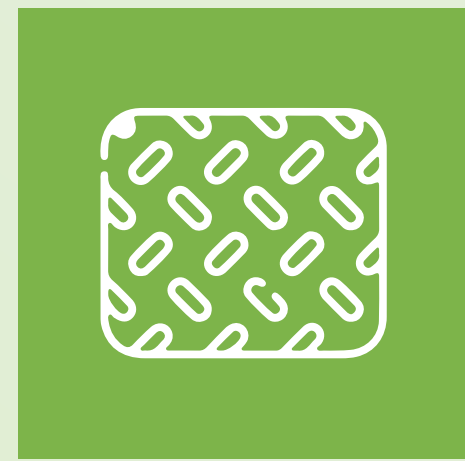

Ground protection is an indispensable foundation for peak performance and safety across diverse industries, from construction and civil engineering to event management and agriculture.

VERSATILE UTILITY ACROSS INDUSTRIES

- **Construction:** Ensures safety and preserves project timelines by providing stable terrain for machinery
- **Events & Venue Management:** Enhances safety, protects surfaces, and streamlines setup/breakdown
- **Agriculture:** Protects soil health, reduces crop damage, and facilitates smoother machinery operation
- **Utilities & Infrastructure:** Guarantees access for maintenance and emergency response, minimising disruptions
- **Logistics & Transport:** Maintains road integrity, reduces transportation risks, and saves costs
- **Environmental:** Preserves natural habitats and supports corporate environmental stewardship
- **Mining & Excavation:** Provides stability for heavy machinery and lessens the ecological impact

OUR RANGE OF GROUND PROTECTION SOLUTIONS

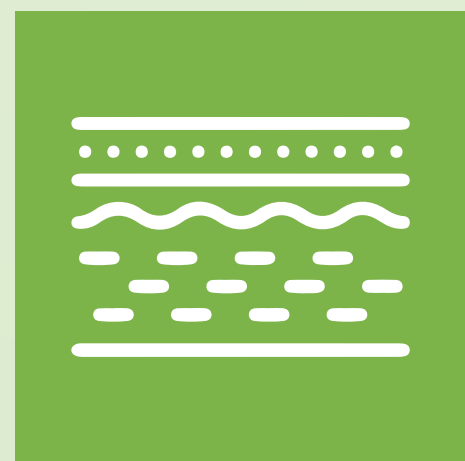

GROUND MATS

Ideal for varied terrains, supports up to 50 tonnes, and is made from 100% recycled plastic

TERRATRAK PLUS

Heavy-duty flooring that promotes grass growth, suitable for large-scale events

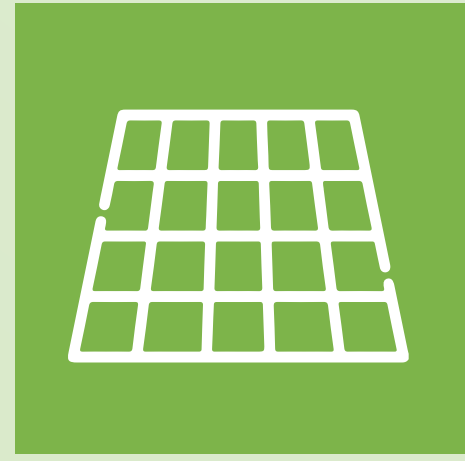

ALUMINIUM TRACKWAY PANELS

Adapts to contours, supports heavy vehicles, and is quickly deployable for temporary roadways

TUFFTRAK

Heavy-duty mats for extreme terrains, supporting up to 150 tonnes with excellent traction

CARPETDECK

Transforms gym floors for events, providing aesthetic appeal and floor protection

WHY TRUST GROUND PROTECTION IRELAND FOR YOUR GROUND PROTECTION NEEDS?

- **Industry Backbone:** Essential for operational efficiency and safety
- **Tailored Solutions:** Diverse range of products for unique challenges
- **Expert Team:** Dedicated professionals ready to enhance your industry operations
- Contact Ground Protection Ireland at info@groundprotection.ie or call **01 862 3692** for industry-leading solutions today!
